Broker's comments.....

Truly a rare find! This classic Bertram Bahia Mar has been professionally restored and refitted with no expense spared. With a galley, head and sleeping accommodations tucked away in a fully enclosed cabin, she's a comfortable family day boat or weekender for couples. The cockpit is exceptionally large with plenty of room for gear, and the low freeboard means great fishability. Topping it all off, the beamy, deep-V hull is renowned for its phenomenal seakeeping qualities and can handle just about anything you will encounter on the Great Lakes or coastal waterways.

Your opportunity to own a quality classic at a price well below the current owner's investment - don't miss out!
