Survey: Spring 2018

High performance cruising at its luxurious best. Regal's unique FasTrac hull design delivers performance, fuel economy and responsiveness not often found in a boat this size. This is a well built express with innovative cockpit seating and a space-efficient interior with berths for six. Topside, the cockpit has a double-wide helm seat with bolster, and plenty of comfortable passenger seating. The full canvas enclosure makes this space a warm and inviting place to sit back and relax with a great view of the surroundings. A walk-through windshield provides access from the cockpit to the large foredeck sun pad.

This Regal 2760 Commodore comes with a recent SAMS survey and some new electronics, and is equipped with the optional extended swim platform. A great package for family cruising at an affordable price point!
