Ritchie Compass

### **Broker's Comments:**

This is solidly built vessel designed for serious rough-water use – think Limestone/Medeiros on steroids and you'll have the right idea. Designed by the world-renowned Mark Ellis and built in Oakville, Ontario by Bruckmann Manufacturing Inc (now in Mississauga), the beamy, deep-V B-28 quickly became the hull of choice for police and Coast Guard rescue units across Canada. If you need to do more than fair weather boating, this is one boat that is up to the challenge and then some. Bruckman's solid reputation for quality and performance over 50-years of boat building places them in the top echelon of custom builders in North America. If you are looking for the smooth, solid ride and proven performance of a purpose-built boat, don't miss this is rare opportunity to own a true classic with an all-Canadian pedigree.

Sea Drifter II has been lightly enjoyed in over the years on the sparkling, but often challenging, waters of Georgian Bay. She is in all-round excellent condition with minimal hours on her twin I/Os.
