Recessed hydraulic trim tabs and hydraulic steering
Racor fuel filters
Raw water strainers

Composite fuel tank (256 gal)
Engine hatch actuator
Engine compartment automatic/manual fire suppression
All existing safety and mooring equipment
Spare Nibral propeller

Broker's Comments:

Designed for both comfortable cruising and serious sport fishing, Tiaras 3200 Open replaced the popular 3100 open in 2004 adding extra length and beam. A reverse-rake transom and low freeboard aft provide an exceptionally graceful hull profile with an LOA of 37' 7" when swim platform and pulpit are included. The self-draining lower cockpit provides a full 65 sq ft of open space for fishing or cruising activities. Tiara quality is built-in from the get-go with premium resins, cored decks and hullsides, gelcoated bilge and composite windshield framing and fuel tanks that stand up exceptionally well in any marine environment. Quick access to the engine compartment is provided via a floor hatch in the upper cockpit, and for more serious maintenance activities, the entire helmdeck lifts on hydraulic rams at the push of a button. Fit and finish below decks is second to none with a full service galley, pedestal forward berth, convertible dinette and loads of natural light through a generous array of overhead hatches and portlights.

This Tiara has been optioned out for fishing with the Tournament cockpit hardtop, transom baitwell and prep station, rod holders and cockpit wet bar. The hardtop has been extended aft with a custom sunshade protecting the entire aft cockpit area, a great comfort feature for cruising or fishing. Powered by low-hour Volvo D-6 370HP diesels, she has an estimated cruising range of 289 statute miles. Additional options and features include a 30" swim platform, generator, cockpit drop curtain, coloured topside gelcoat and bow and stern thrusters for effortless maneuverability around the dock.

If your target is a premium sport boat with a full suite of cruising amenities, this Tiara 3200 Open is a "must see" offering!

Vessel located off-site. Please call ahead for a viewing appointment.
