All existing mooring equipment

Excluding: Dinghy and motor

This Silverton 34 has undergone a long list of recent upgrades, both esthetic and structural, with approximately \$50,000 invested in 2015. She is now ready for new owners and fitted-out for many more years of enjoyable, trouble-free cruising. See below for the complete list of upgrades.

Power Boat Guide says "Built on a solid fiberglass hull, the rakish styling of the 34 Silverton has held up well over the years. A single stateroom, galley-down floor plan that sleeps 6 in comfort with the convertible dinette, pull-out sofa and V-berth cabin."

The V-berth in this Silverton Convertible has been very tastefully customized with the bed filled in with cupboards added below for clothing storage. The cockpit with glass sliding door is a wonderful place to entertain and BBQ. You will enjoy the 360° view from the salon or the fly bridge which seats five. All the key equipment for comfortable cruising ... generator, air/heat, windlass, ice maker, BBQ and new custom swim platform with davit system!

All details are believed to be correct, but not guaranteed by owner or Broker. Some information may have been sourced from manufacturer's brochures. It is the Purchaser's responsibility to have all engines, systems and integrity of the vessel inspected.

2015 Reconditioning and Upgrades

Mechanical/Structural

Stringers	Replaced inboard engine stringers from transom to dinette, including traverse frames and tank beds.
Engines	Tune-ups completed, added intake strainers, replaced fuel fill and cooling water hoses. Replaced valve cover gaskets and oil caps. Replaced original exhaust system with new custom-made mufflers and new exhaust hoses.
Generator	Overhauled valves and tuned up ignition. New impellers, strainer, intake and exhaust valves. Hoses replaced to marine code standards. Tap valve replaced with lever operated ball valve.
Water System	New hot water tank with ignition protection and approved wiring. New hot and cold water hoses, clamps, valves, etc. to marine code standards.
Head	New charcoal filter
Thru Hulls	Replaced all above and below through-hull fittings for galley sink, head sink, bilge pumps, air conditioner drain. New ball valve for A/C unit. New forward bilge pump, New wash-down pump intake hose, all hoses and fittings to current marine code standards.
Fuel Senders	New starboard fuel sender, and gaskets on both gages. Both reading correctly.
Batteries	New starter battery, 4 terminal covers, ground cables for batteries and motors, battery tie-down straps. Wiring diagram provided
Wiring	Isolated AC from DC on electrical panel box. New wiring on bridge to marine code standards

Esthetic Repairs

Exterior	New custom-built fiberglass 36" swim platform with dinghy davit system and swim ladder.
	New bow window cover (Sunbrella). Second opaque window cover repaired.
	Pulpit teak strips removed. Reinforced mounting and refinished with gel coat.
	New antifouling paint on hull.
	New Bruce anchor and windlass safety lock. New Danforth anchor and rope for stern. New tow rope.
	New port, starboard and transom ladder steps with anti-skid covering. New custom fit outdoor carpeting on deck.
Interior	Replaced cabin helm with ice maker.
	Reupholstered dinette seats with marine vinyl in neutral beige.
	New fitted custom sheets, comforter and memory foam in V-berth.
	New custom oak divider between galley and salon.
	New toaster oven and Kuerig coffee maker with refillable pods in galley.
	New up-scale scatter rugs
