Existing safety equipment

Existing mooring equipment

2017 Survey available

Recent Maintenance:

Starters rebuilt 2017

Engine impellers changed 2017

Generator impeller 2016

Excluding:

Dinghy and BBQ

Carver's 38 Motor Yacht offers the comfort and privacy of two staterooms equipped with separate heads, a large salon with a step-down galley and a large dinette/lounge. The enclosed hardtop aft deck and large command bridge together provide ample space for above deck activities. Carver built these boats to last; the solid fiberglass bottom and a solid fiberglass stringer system eliminates any risk of moisture-related hull problems that can develop with other build techniques.

This freshwater Carver 38 Motor Yacht is fully equipped for extended cruising and comes with a full 2017 survey. With low hours on the big block Mercruiser engines, she is an excellent buy with a whole lot more boating ahead of her.
