Carver's 380 Santego has an expansive single-level layout that through popular demand was in production for over 10 years. This freshwater 380 Santego is very clean and comes with numerous upgrades and extras. Port and starboard molded steps at the swim platform provide seating and excellent access to the aft cockpit. The cockpit is very spacious, has a built-in bench and full height glass sliding doors into the cabin. The fly bridge offers direct access to the foredeck with a convenient walk-thru feature, a full canvas enclosure, comfortable seating for eight with a double-wide helm seat, passenger seat, forward bench and port and starboard lounges.

Moving below decks, the bright, roomy salon has large port and starboard wraparound settees with a dining table, a full-service modern galley and a convenient wet bar counter with glass and bottle storage and more cupboard space. The galley is equipped with a full size fridge/freezer, coffee maker, built-in microwave, 2-burner stove and has plenty of storage and counter space. The roomy forward stateroom has an island berth, privacy door, two closets, drawer space and en-suite access to the head. The large head compartment has a separate shower stall with bench and mirrored vanity with storage above and below.
