Internal sea water strainers

Engine sync gauge

Automatic fire suppression system (engine compartment)

Foredeck sun pads (2018)

All existing safety and mooring equipment

Hard bottom Zodiac dinghy with 4-HP Suzuki motor

2016 Survey

Captivating Styling, Two Staterooms

Diesel Power * Freshwater * Bow Thruster * Inverter

Carver's 396 Motor Yacht was introduced in 2000 and brought aggressive new styling to traditional aft cabin designs. Unique raised side decks allow far more interior cabin space for all sorts of extra amenities along with two luxurious staterooms and two head compartments with separate stall showers. Frameless, two-tier windows flood the salon with natural light and provide great exterior visibility. The entire cabin space is finished in rich cherry wood veneers, cabinetry and trim with deep-pile carpets and solid surface countertops throughout.

Topside, a roomy, canvas-enclosed bridge offers comfortable seating for guests, a centerline helm position with companion seating and a convenient wet bar with fridge. The enclosed hardtop aft deck serves as a boarding area with port and starboard boarding gates and acrylic wing doors leading to raised sidewalks and a foredeck with sun pads. A molded staircase provides safe access to an extended swim platform for water-level activities.

"Rum Runner" is a very clean, low-hour, freshwater diesel cruiser that is loaded with added features and upgraded electronics. Carver's 396 Motor Yachts were built on solid fiberglass hulls with a molded fiberglass stringer system that eliminates many of the moisture-related structural issues inherent with other construction techniques. This 396 Motor Yacht is quite simply a gem and we believe you will be hard-pressed to find another in comparable condition. A 2016 NAMS survey is available.
