Excluding: Waverunner PWC

Sedan Bridge Layout, Two-Stateroom Interior

Mainship's 40 Sedan Bridge boasts a spacious interior and a large flybridge making her an excellent choice for cruising and entertaining. The interior of the 40 Sedan Bridge is arranged with two staterooms forward and a spacious, full-beam salon with lounge seating, a big U-shaped galley and convertible dinette. The forward stateroom has a walk-around queen berth and private access to the head while the guest stateroom offers two single bunks. The cockpit has built-in bench seating, a transom door, and twin hatches for engine access. Topside, the flybridge has an island helm console with wrap-around lounge seating and the foredeck and sun pad area is reached via a door in the forward flybridge coaming.

This three-owner, freshwater Mainship 40 has been professionally maintained. The canvas and bridge upholstery are very good condition, and low hours on the main engines and generator indicate relatively light usage overall. A motorized Seaweed davit system has been added to the integral swim platform and the salon and galley have been updated with laminate flooring. A solidly built family cruiser with all the amenities for extended trips. 2018 survey available.
