Manufacturer's Description:

Eye-catching, sporty and brilliantly engineered, the amazing 225 SSi is inch-for-inch the perfect multi-purpose sport boat for a growing family on the go. Whether your heart's desire is watersports, cruising or overnight adventures with the kids, the innovative 225 adds the quality and attention to detail you expect from an award winning Chaparral SSi Wide Tech™. Chaparral's cuddy cabin design provides overnight accommodations for two along with sun relief, a huge protected storage area and the best head design you'll find at this length.

Look no further than our clever easily-convertible dual sun lounge interior for proof that no detail is left unturned. Bow to stern, the 225 is all about family fun. Borrowing a page from our wildly popular Sunesta sportdecks, the 225 features a U-Slide transom seat system. The aft-facing seat is perfect for putting on water sports equipment or interacting with all the splashing going on in the water. The seat effortlessly folds down into a huge sun lounge and is surrounded by convenient drink holders and grab rails. A three-step telescopic boarding ladder with a top-mounted grab handle speeds deepwater boarding.

The forward deck features Chaparral's trademark Wide Tech styling. Optional recessed cleats and a high profile bow rail are part of well-priced options packages that merit consideration. A must for long distance adventurers, the optional Explorer Package includes an anchor roller, high bow rail, opening portlights, a transom shower with pressure water and a color coordinated canvas deck hatch cover. An optional windlass and heavy-duty anchor can only be ordered with the Explorer Package.

Broker's Comments:

This low-hour Chaparral 225 is in stunning like-new condition from stem to stern and comes loaded with optional equipment and electronics, including a camper top enclosure and trolling system for the fishing enthusiast. The optional 8-cylinder Mercruiser 5.0 litre MPI engine with Bravo III outdrive delivers plenty of power and torque for water sports. Cruise at a comfortable 38 mph at 3200 RPM, or when the urge occurs, flat-out at 48 mph. This is a stylish, family-oriented sport boat capable of safely handling a wide variety of boating/cruising activities. We sincerely doubt you'll find a cleaner or better equipped pre-owned Chaparral 225 on the market today.
