All existing safety equipment
All existing mooring equipment

Broker's Comments:

A superstar of Chaparral's premium SSX line of luxury trailer boats, the 257 is loaded with "best in class" premium features and is rated as one of the finest sportboats on the market. Build quality and finish is second to none, with great performance and a soft ride that only a truly deep-V hull can provide. Creative seating features abound; variable position lounges that serve as regular seats while cruising, can be angled into a chaise for relaxing, or folded flat at the press of a switch for sun tanning. A low-profile integrated swim platform makes boarding and debarking a breeze and provides safe and easy access for swimmers.

This 100% freshwater Chaparral 257 SSX is powered by a 430HP Mercruiser engine with Bravo III dual prop outdrive. She comes equipped with Mercury's "Digital Throttle and Shift" (DTS), which eliminates mechanical cables for smooth shifting and instant throttle response. See this [2013 TRAILER BOAT TV](#) video review for a look at some of the key features of this exceptional sportboat!
