The Four Winns V265 rides on a "Stable-Vee" and according to Four Winns, this hull uses a stepped running surface to reduce drag and "uniquely shaped" chines to add stability and faster planing. The cabin is a lovely layout that sleeps 4 and has a very functional galley and enclosed head with vanity and shower. The cockpit is where you will spend most of your time and the seating, wet bar, and molded steps to the foredeck are all well done! This V265 has been meticulously maintained and has had many recent upgrades!

An aluminum trailer is included!
