May 2025 survey available with an accepted offer

The 300 SC (1996 - 2000) is one of Doral's Generation II line of sport cruisers with cab-forward design. Available in two versions, the 300 SC has a slightly smaller cockpit and a larger cabin space than the 300 SE model. This 300 SC comes with an extended swim platform in addition to the standard integrated platform and is extremely clean and well kept throughout. The twin V6 MerCruiser engines provide plenty of power, good fuel economy, and have been recently tuned-up. Outdrive bellows and gimbal bearings have also been replaced, along with the trim sensors and oil lines. Bottom paint was refreshed before the 2025 spring launch.
