Beam central vacuum

Smart TV in salon (2023), Insignia TV in mid cabin

Fusion Bluetooth stereo system (helm remote as is)

Existing safety and mooring equipment and manuals

Excluding: Dinghy, coffee maker and personal items

Broker's Comments:

Cruiser's 360 Express was introduced in 2008 and rebranded the 380 Express beginning in 2012. The sleek express styling was considered cutting-edge at the time and still turns heads today. With a full-beam, open concept salon, this family cruiser is roomy below decks, and offers richly appointed finishes throughout. The guest-friendly cockpit includes a convenient wet bar, and offers plenty of comfortable seating, including a double-wide helm seat and wrap-around aft lounge. An electrically activated hydraulic hatch in the cockpit floor provides easy access to the engine compartment for routine service and maintenance activities. Factory power options were Volvo stern drives or V-drive inboards and later models added an IPS pod drive option.

"Rum Runner" is covered slip kept and in Great Lakes freshwater condition. A 2022 survey found her to be in good overall condition and places her at the higher end of the market value scale when compared with sister ships. Since acquiring her in 2022, the current owners have invested over \$30,000 in equipment and maintenance. Significant recent upgrades include new Raymarine electronics, new sun pad, new galley fridge, SeaDeck cockpit and platform overlays, bottom paint (2022) and new AGM batteries (2022).

All things taken into account, we think you would be hard pressed to find better value in a hardtop express cruiser of similar quality.
