Broker's Comments

In production 2005-08, the Meridian 368 packs a lot of amenities into 36 feet. Two-tier salon windows light up the spacious, well appointed salon and galley. Two staterooms provide comfortable sleeping accommodations, each with direct access to a head with separate stall shower. A hardtop aft deck with canvas enclosure provides a comfortable seating area with molded steps leading down to the swim platform and up to a large command bridge with plenty of passenger seating and a convenient refreshment centre. Meridian Yachts' Docking on Command system eliminates docking apprehension with joystick control of coordinated bow and stern thrusters.

"In2WishIn" is a clean, low hour aft cabin motor yacht equipped with all the features and creature comforts of a much larger vessel. She comes equipped with a generator and solar panels for your power needs away from the dock. The twin 375 h.p. MerCruiser inboard engines have recently undergone a full mechanical inspection, including compression tests. A fresh coat of bottom paint was applied spring 2025 so she's turn-key ready to hit The Bay, with her new owners. A 2024 survey is also available upon receipt of an accepted offer to purchase.
