New bottom paint (2016)

Topsides buff and wax (2016)

All existing safety equipment

All existing mooring equipment

Broker's Comments:

This version of the Silverton 37 Convertible was in production from 1990 to 2000 and features a large convertible dinette in place of a fixed double-bunk mid-cabin. Together, the forward stateroom, dinette and sofa bed can sleep six in comfort. The salon is bright and surrounded by large windows offering a 360 degree view. With solid fiberglass hull construction, closed-cell foam core deck and cabin top, Mirage has easily stood the test of time and will be gracing the waterways for years to come.
