Cockpit hand shower
Pressure water hot & cold water
Hot water tank
Electric head
BBQ
New cutlass bearings and rebalanced props (2017)
All existing safety and mooring equipment
Recent survey (very good condition overall)

Broker's Comments:

This version of the Silverton 37 Convertible was in production from 1990 to 2000 and features a large convertible dinette in place of a fixed double-bunk mid-cabin. Together, the forward stateroom, dinette and sofa bed can sleep six in comfort. The salon is bright and surrounded by large windows offering a 360 degree view. Based on a solid fiberglass hull with a closed-cell foam core deck and cabin top, this 37 Convertible is built to last. She is very clean and well maintained with numerous upgrades added over the years. Well worth a serious look!
