### Broker's Comments

Silverton's 39 Motor Yacht entered the market in 2002 as the successor to the highly successful 372/392 Motor Yacht. The popular Silverton SideWalks were retained along with the tall freeboard profile and wide stance while smoothing out some of the boxy lines of her predecessor. The result is a comfort-driven design that still delivers great performance and a thoughtful interior layout with above average finishes and detailing. The 39 Motor Yacht hull is constructed of hand-laid fiberglass with a solid fiberglass bottom and Coremat laminated topsides. A factory-applied vinylester barrier coat greatly reduced the chance of hull blistering below the waterline. Silverton's innovative SideWalk design maximized useable interior space and provided a tremendous amount of storage space vs. more traditional side-deck designs.

This low-hour Silverton 39 is moored in a covered slip and is a 100% Great Lakes freshwater boat. "Kuchie Dough" is in excellent condition throughout. She comes equipped with a brand new motorized dinghy lift, a new galley fridge and a new power inverter. A survey (fall 2024) is available for review upon receipt of an acceptable offer.
