\$369,900

LOA	43' 7" (w/std platform)	Beam	13' 11"
Draft	45"	Fuel	400 gallons
Water	90 gallons	Weight	33,650 lbs (wet)
Waste	50 gallons	Headroom	6' 11"
Power	Volvo Penta D6 IPS 500 370HP ~ 860 hours		

Original Owner - 100% Freshwater - Diesel Powered

Full-beam Interior with Same Level Salon and Galley
Enormous Party-Size Hardtop Flybridge with Full Enclosure
Custom Hydraulic Platform and Dinghy Lift
Volvo IPS Drives with Joystick Control

The Carver 43 Super Sport is a true live-aboard cruiser with a cavernous interior made possible by raising the sidewalks to near flybridge level. The extended hardtop bridge provides great topside entertainment space complete with a fully equipped wet bar and a large wraparound passenger lounge. Sidewalks leading to the fore deck are accessed from either side of the cockpit via molded steps. The self-draining cockpit is hardtop covered with transom door access to a large swim platform, and sliding door access to the main salon. A custom hydraulic platform extension provides a superb dinghy management system, and a dinghy and motor are included in the package.

Below decks, the main salon is configured for nonstop entertainment or quiet relaxation. Décor includes high shine cherry wood accents, a gorgeous dinette table with wood sea rail, a Flexsteel chair, a retractable Flexsteel sofa bed and a built in entertainment centre that includes a marine grade LCD flat screen. The galley is outfitted with light-coloured, solid surface countertops and burlled cherry flooring. Recessed halogen lighting coupled with a convection microwave, 2-burner smooth top stove and Nova Kool upright fridge/freezer, make snack and meal preparation a breeze. A dinette with an L-shaped lounge opposite the galley provides a comfortable eating area. There is a hatch-accessible laundry/storage room accessed by stairs beneath the galley.

Stepping down to the master and VIP staterooms, there is a port-side head with circular shower stall and the VIP stateroom with double berth to starboard. The master stateroom occupies the bow area with an island queen berth, an en-suite head to starboard, and a separate shower stall to port.

Rounding-out the package is the revolutionary Volvo IPS propulsion system with EVC control. This is a pod-drive system with counter rotating forward-facing propellers (4) that offers intuitive joystick control for docking and close quarters maneuvering, and provides impressive performance, reliability and fuel economy over comparable straight shaft configurations. Not familiar with IPS drives and EVC controls? You can read all about them [HERE](#). Enjoy stress-free docking under just about any conditions!

Located off-site – please call in advance to book an appointment.

All details are believed to be correct, but not guaranteed by owner or Broker. Some information may have been sourced from manufacturer's brochures. It is the Purchaser's responsibility to have all engines, systems and integrity of the vessel inspected. **Page 1 of 2**
